🎵 Yan Min Thwin 📧 @yanminthwin 📍 Bangkok, Thailand

A professional web developer with 3 years of experience in Full Stack Web Development. Problem-driven Full-Stack Engineer specialized in Next.js, NestJS, and AWS, leveraging AI-powered workflows to build scalable systems

📁 PROFESSIONAL EXPERIENCE

2025 April – Present
Bangkok, Thailand

Full Stack Engineer, Geek Squad Studio 📁

- **Architected and shipped** internal business portals and data-driven tools using **Next.js**, **NestJS**, and **Supabase**, focusing on modularity and long-term scalability.
- **Designed resilient infrastructure** on **AWS** utilizing **ECS Fargate**, **RDS**, and **S3**, managed through **Terraform** to ensure environment consistency and 99.9% uptime.
- **Automated complex CI/CD pipelines** using **GitHub Actions**, reducing deployment lead time and ensuring robust security via secrets management.
- **Pioneered AI-accelerated development** workflows, utilizing LLMs for automated unit testing and architectural scaffolding to increase team velocity.

2025 January –
2025 April
Singapore, Remote

Full-Stack Engineer, Brillar 📁

- **Engineered AI-integrated applications** using the **MERN stack**, implementing real-time model inference and complex data processing pipelines.
- **Developed scalable API architectures** to bridge high-performance frontends within event driven system.
- **Collaborated** with AI teams to deploy, optimize, and scale machine learning models in production environments.

2023 October –
2024 October
Yangon, Myanmar

Front End Developer, Dinger 📁

- Contributed to the creation of an admin portal for MTB Bank's wallet app, improving administrative efficiency and user management.
- Delivered exceptional performance and commitment to projects, consistently meeting tight deadlines and providing regular updates.
- Collaborated closely with UI/UX designers to streamline workflow and ensure design consistency across projects.

EDUCATION

2022 July –
2026 April

KMD COLLEGE , **NCC Computing Diploma**

- Accomplished a diverse range of subjects comprising programming, database management, and software development methodologies
- Attained a high level of proficiency in key concepts of computing evidence by distinction in the diploma program

2023 February –
2023 October

Microverse , **Full Stack Web Development Program**

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

2016 December –
2020 March

University of Medicine (1) , **M.B.B.S**

- Generalized in Clinical Medicine, Surgery, Orthopedics and Neurology, Public Health, Pharmacology
- Completed clinical rotations in Internal Medicine, Surgery, and Emergency Medicine at Yangon General Hospital.

PROJECTS

Iconic

An e-commerce website for a variety of apple products and accessories built with:

- Next.js
- Redux
- Nest.js
- Tailwind CSS

Atenxion

AI-powered productivity platform designed to help users achieve deep focus and mental clarity, built with:

- Next.js
- MongoDB
- Express.js

SKILLS

Languages: TypeScript | JavaScript | Ruby | Python

Front End: Next.js | React | Tailwind CSS | Ant Design | Material UI | Shadcn | Motion

Backend & Database: NestJS | Express.js | Ruby on Rails | PostgreSQL | MongoDB

Cloud & DevOps: AWS | GCP | Terraform | Docker | Digital Ocean | GitHub Actions

Engineering Mindset: Problem-Driven | Systems Thinking | Analytical Research | Collaborative | AI-Native | Growth-Oriented
